Instructions for using your Guardian Life Light Safety Flare

Locate the Function Switch

Press with thumb or finger to activate.

To shut off from any light cycle, press and hold the On switch for (4) four seconds and the unit will shut-off.

To replace battery, remove the screws from the back and replace with one CR123A high capacity lithium battery.

Nine Functions

1. Press 1x for Rotating Beacon
2. Press 2x for Fast Blinking
3. Press 3x for Fast Blinking
4. Press 4x for Alternating Light
